Dear Skin of Color Society Members, Colleagues and Guests,

Welcome to the 18th Annual Skin of Color Society Scientific Symposium!

We’re thrilled to present this year’s Scientific Symposium, themed, “Diversity in Action: Science, Healthcare and Society.” We’re honored to have such an esteemed lineup of nationally and globally recognized dermatologists who will share their expertise with us by way of invited speaker presentations, moderated panels and oral/poster abstracts presented by students, residents, research fellows and physicians.

This year’s program continues our longstanding tradition of presenting the latest skin of color dermatology research and insights from highly respected experts and researchers from around the country and the world.

We hope that you enjoy this year’s Scientific Symposium, and gain a lot of insights, ideas and inspiration from it. For those of you who are new to the Symposium, we invite you to consider becoming a member of our wonderful global society.

Thank you for joining us!

Andrew F. Alexis, MD, MPH, FAAD
Co-chair, Scientific Committee
Professor of Clinical Dermatology,
Vice-Chair for Diversity and Inclusion,
Department of Dermatology,
Weill Cornell Medicine

Ginette A. Okoye, MD, FAAD
Co-chair, Scientific Committee
Professor and Chair of Dermatology,
Howard University College of Medicine
Dear SOCS Members, Colleagues and Guests,

Welcome to our 18th Annual Skin of Color Society Scientific Symposium!

We are delighted to return to a live, in-person meeting for this year’s Symposium, and pleased to have participation from SOCS members as well as colleagues, researchers, dermatologists-in-training and students from across the U.S. and numerous countries around the world.

Our SOCS Scientific Committee, chaired by Drs. Andrew Alexis and Ginette Okoye, have once again developed an excellent educational program this year, covering an exciting array of important topics in skin of color dermatology.

We are truly grateful to our sponsors for their support, which makes this signature SOCS program, as well as many other major SOCS activities, possible.

This past year represents an extraordinary time in our organization’s continued growth and evolution as the world’s leading organization dedicated to skin of color dermatology. We truly appreciate our many members and collaborators who have joined us as we work to advance skin of color dermatology and to achieve health equity and excellence in patient care.

We hope that you enjoy and benefit from this year’s Scientific Symposium. If you are not already a SOCS member, we invite you to join our vibrant organization. If you are already a member, we encourage you to become more involved in the coming year!

It has been my honor and a joy to serve as your President for the past year. I look forward to staying connected with you.

Thank you for your attendance and your participation.

Sincerely,
Donald A. Glass, II, MD, PhD, FAAD
SOCS President 2021-2022
Associate Professor, Department of Dermatology, UT Southwestern Medical Center
GENERAL INFORMATION

18TH ANNUAL SKIN OF COLOR SOCIETY SYMPOSIUM
THURSDAY, MARCH 24, 2022

VENUE
Omni Boston Hotel at the Seaport
450 Summer Street
Boston, MA 02210
Room: Ensemble EFG
WiFi Access Code: SOCS2022

MEETING HOST
Skin of Color Society
1932 S. Halsted St., Suite 413
Chicago, IL 60608 USA
Tel: 1- 630-578-3991
Fax: 1- 630-262-1520
info@skinofcolorsociety.org

OFFICIAL LANGUAGE
English

CONFERENCE PURPOSE
To provide a forum for the exchange of information pertaining to skin of color. The Symposium will bring together international colleagues, residents, and research fellows who will present on new research, share experiences, and discuss the new direction of the special interest of dermatology–skin of color.

TARGET AUDIENCE
Who will benefit from attending?
- Dermatologists
- Physicians with an interest in skin of color
- Residents, fellows, medical students with an interest in skin of color

WEATHER
The average maximum daytime temperature in late March in Boston, MA is 46°F (7°C), while the average minimum temperature is a chilly 34°F (1°C). You’ll need a jacket or warm coat during the day and in the evening.

MEETING ATTIRE
The attire for both the educational sessions and social events is business casual.

PERSONS WITH DISABILITIES
The 18th Annual Skin of Color Society Scientific Symposium fully complies with the legal requirements of the Americans with Disabilities Act (ADA) and the rules and regulations thereof.

CME
The meeting is not sanctioned for CME/PRA Category 1 Credits. However, the meeting will comply as much as possible with the policies and best practices of the Accreditation Council for Continuing Medical Education. All individuals in a position to control the content of the activity, including speakers and authors, moderators, and planning committee members, will properly disclose relevant financial relationships with any commercial interests pertinent to their talk or the subject of the meeting.

Cheryl Burgess, MD, FAAD
*Founder and President, Center for Dermatology and Dermatologic Surgery*

**Meeting Panelist - Aesthetics in Skin of Color**

**Dr. Burgess**, the founder of the Center for Dermatology and Dermatologic Surgery in Washington, DC, is an acclaimed board-certified medical expert and key opinion leader in the field of dermatology. She is an advisor, consultant and clinical research investigator to major pharmaceutical companies and is known as an authority on non-invasive cosmetic procedures and advanced dermatological technology. She is an Assistant Clinical Professor at The George Washington University School of Medicine and Health Sciences and Georgetown University of Medicine while currently serving on the Board of Directors for the American Academy of Dermatology.

Roxana Daneshjou, MD, PhD
*Clinical Scholar, Dermatology, Postdoctoral Scholar, Biomedical Data Sciences, Stanford University*

**Meeting Invited Speaker - Artificial Intelligence in Dermatology**

**Dr. Daneshjou** is a Clinical Scholar in Dermatology and postdoctoral scholar in biomedical data science at Stanford School of Medicine. She completed her MD/PhD and dermatology residency at Stanford. Her main research interest sits at the intersection of artificial intelligence and dermatology.

Seemal R. Desai, MD, FAAD
*President, Medical Director, Innovative Dermatology; Clinical Assistant Professor of Dermatology, UT Southwestern*

**Meeting Panel Moderator - Pigmentary Disorders**

**Dr. Desai** is the President & Medical Director for Innovative Dermatology, PA, in Plano, Texas as well as Clinical Assistant Professor of Dermatology at the University of Texas Southwestern. Dr. Desai has been consistently rated “Best Dermatologist” by D Magazine and other national publications. He has lectured both nationally and internationally and is known as an expert in pigmenitary issues. He served as the Skin of Color Society President from 2017-2019.

Nada Elbuluk, MD, MSc, FAAD
*Associate Professor of Clinical Dermatology; Director, Skin of Color Program & Pigmentary Disorders Clinic; Director, Skin of Color Research Fellowship; Director, Dermatology Diversity & Inclusion Program; USC Department of Dermatology, Keck School of Medicine*

**Meeting Panelist - Pigmentary Disorders**

**Dr. Elbuluk** is a board-certified dermatologist and an Associate Professor at the USC Keck School of Medicine, Department of Dermatology. She is the founder and director of the USC Skin of Color Center and Pigmentary Disorders Program and Fellowship. She also serves as the Founder and Director of the USC Dermatology Diversity and Inclusion Program. Dr. Elbuluk’s clinical and research interests include general medical and cosmetic dermatology, ethnic skin conditions, and pigmenitary disorders. Dr. Elbuluk received her bachelor's degree in Psychology from Princeton University and her medical degree at the University of Michigan where she graduated with a Distinction in Research. While there, she received a Master of Science in Clinical Research from the University of Michigan School of Public Health. She completed her dermatology residency at Johns Hopkins Hospital. Afterwards, she was a fellow and clinical instructor in the Dermatology Department at The University of Pennsylvania.
INVITED SPEAKERS (CONTINUED)

Donald A. Glass, II, MD, PhD, FAAD
President, 2021-2022, Skin of Color Society; Associate Professor, Department of Dermatology, UT Southwestern Medical Center
SOCS President, Meeting Panel Moderator - Keloids

Dr. Glass is an Associate Professor in the Department of Dermatology at the University of Texas Southwestern Medical Center, in Dallas, Texas. Originally from the Bahamas, Dr. Glass enrolled in the Medical Scientist Training Program at Baylor College of Medicine (BCM) in 1998. He received his PhD from BCM in 2005 from the Department of Human Genetics where he studied the role of Canonical Wnt Signaling in Bone Regulation. He received his MD from BCM in 2006 and completed his transitional year internship at Cambridge Hospital in Massachusetts in 2008. Dr. Glass completed his residency training in Dermatology and a postdoctoral fellowship in the McDermott Center (with Dr. Helen Hobbs and Dr. Jonathan Cohen) at the University of Texas Southwestern Medical Center. He is board-certified by the American Board of Dermatology. Dr. Glass’ main research interest is in understanding how keloids (exuberant scarring of the skin) occur and in finding the genes that predispose people to develop keloids. Keloids occur disproportionately more often in skin of color, and the ability to develop keloids can be inherited within families. Dr. Glass is compiling a registry of individuals as well as families affected by keloids in order to collect samples and information to study keloids further. His other research interest is identifying genes that cause rare skin disorders. Dr. Glass practices general dermatology and has an interest in genetic skin disorders. He is the 2011 Skin of Color Society Research Award Winner for his research, “Uncovering the Genetic Causes of Keloid Formation.”

Pearl E. Grimes, MD, FAAD
Director, The Grimes Center for Medical and Aesthetic Dermatology; Director, The Vitiligo & Pigmentation Institute Of Southern California
Meeting Panel Moderator - Aesthetics in Skin of Color

Dr. Grimes is a globally recognized dermatologic expert and a leading international authority on vitiligo and pigmentation disorders. As Director of the Vitiligo and Pigmentation Institute of Southern California, she treats patients from all over the world who seek her expertise and extraordinary patient care. Her all-encompassing and dedicated approach to treating these disorders has attracted patients from various regions of the world for her expertise. She is a clinician, researcher, and orator, lecturing globally on pigmentation disorders. She has also shared her expertise on cosmetic procedures such as fillers, chemical peeling, and microdermabrasion. Dr. Grimes has received recognition within the field by being awarded the prestigious Dermatology Foundation “Practitioner of the Year” Award in 2011 and the Women’s Dermatological Society “Mentor of the Year’ award. She was placed on LA Magazine’s Super Doctors list for five consecutive years and on the “Best Doctors of America” list for the previous 12 years.

Corey L. Hartman, MD, FAAD
Assistant Clinical Professor, UAB Dermatology; Founder and Medical Director, Skin Wellness Dermatology
Meeting Panelist - Pigmentary Disorders

Dr. Hartman is the founder and medical director of Skin Wellness Dermatology in Birmingham, Alabama. He is Assistant Clinical Professor of Dermatology at the University of Alabama School of Medicine. Dr. Hartman is certified by the American Board of Dermatology and is a fellow of the American Academy of Dermatology and the American Society for Dermatologic Surgery. Dr. Hartman has a special interest in Dermatologic Surgery, Injectables, Hair Restoration and Laser Dermatology. He frequently speaks on cosmetic procedures and social media marketing in dermatology at meetings around the country. He also serves on the Advisory Boards for Men’s Health Magazine, Allergan Aesthetics, Galderma Aesthetics, Dermatology Times and Revision Skin Care. Most recently, Dr. Hartman was named to the Board of Directors of the Skin of Color Society.

Eva Kerby, MD, FAAD
Assistant Clinical Professor, Department of Dermatology, Weill Cornell Medicine
Meeting Panelist - Keloids

Dr. Kerby is an assistant clinical professor in the department of dermatology at Weill Cornell Medicine. Dr. Kerby is the founder and director of the Weill Cornell Dermatology Center for Diverse Skin Complexions (CDSC). She also currently serves as the co-chair of the Skin of Color Society Mentorship committee. Dr. Kerby specializes in general dermatology, dermatologic surgery, and cosmetic dermatology and provides expertise in the diagnosis and management of conditions common in patients with more heavily pigmented skin with a particular research and clinical interest in keloids.
Janiene Luke, MD, FAAD  
Associate Professor, Residency Program Director, Department of Dermatology, Loma Linda University  
Meeting Panelist - Aesthetics in Skin of Color  
Dr. Luke is a board-certified dermatologist, Associate Professor, and serves as Residency Program Director at the Loma Linda University Department of Dermatology in California. Dr. Luke specializes in medical and cosmetic dermatology with expertise in hyperpigmentation, hair disorders, and skin of color. She lectures locally and nationally and has a special interest in resident education and curriculum development. Dr. Luke is active in numerous national societies and completed a 3-year term on the AAD’s Diversity Task Force, where she received a Presidential Award for her efforts. She currently is a member of the Mentorship and the Technology and Social Media Committees for the Skin of Color Society. In her spare time, Dr. Luke enjoys singing, traveling and cooking.

Tiffany Mayo, MD, FAAD  
Assistant Professor, Department of Dermatology, University of Alabama at Birmingham  
Meeting Invited Speaker - “Dermoscopy of Scarring Alopecia in Skin of Color”  
Dr. Mayo is a board-certified dermatologist and Assistant Professor of Dermatology at The University of Alabama at Birmingham. She received an undergraduate and master’s degree in Chemistry at Tuskegee University. Dr. Mayo completed her medical degree from Baylor College of Medicine and Dermatology training at The University of Alabama at Birmingham. She is Director of the Dermatology Clinical Research Unit and her clinical interests include skin of color, hair and scalp disorders, and hidradenitis suppurativa. She has 3 children and enjoys spending time with her family.

Jack Resneck Jr., MD, FAAD  
President-Elect, American Medical Association; Professor and Vice-Chair of Dermatology, UCSF School of Medicine  
Meeting Invited Speaker - "Physician Leadership in Advancing Equity and Shaping the Future of Medicine"  
Dr. Resneck was elected president-elect of the American Medical Association in June 2021. He is vice chair and professor of dermatology at the University of California, San Francisco (UCSF) and holds a joint appointment at the Philip R. Lee Institute for Health Policy Studies. Dr. Resneck is active in health services research, and his studies on patient access to care, telemedicine, quality metrics, prior authorization, and public health have been published in prominent journals and attracted national media attention. He is passionate about the AMA’s work on achieving health equity, attacking dysfunction in health care, confronting chronic disease and reimagining medical education. Raised in Louisiana, Dr. Resneck received his BA in public policy from Brown University and his MD from UCSF where he also completed his internship in internal medicine, residency in dermatology and fellowship in health policy.

Jill S. Waibel, MD, FACS, FAAD  
Medical Director, Miami Dermatology and Laser Institute  
Meeting Panelist - Keloids  
Dr. Waibel is currently the Medical Director and Owner of the Miami Dermatology and Laser Institute located in Miami, Florida. She is the Subsection Chief of Dermatology at Baptist Hospital and the Medical Director of Miami Cancer Institute’s Multidisciplinary Skin Cancer Clinic. In addition, Dr. Waibel serves as a Clinical Voluntary Assistant Professor at the University of Miami.

Explore DEEP | The Skin of Color Society’s Dermatology E-Learning + Equity Platform

DEEP is our new online learning management system, which allows members to learn straight from leading skin of color dermatology experts at their own pace, and earn continuing medical education (CME) credits through dermatology educational webinars and practice management content. In keeping with the SOCS mission, this exciting platform promotes excellence in skin of color dermatology through accessible education and training. SOCS members benefit from free, unlimited access to all educational content! In April 2022, non-members will be invited to enter DEEP for a fee.

We invite you to start experiencing the DEEP platform, and encourage you to become a regular “DEEPer!”

This unique educational program is made possible by a grant from L’Oréal Dermatological Beauty Brands: SkinCeuticals, La Roche-Posay, and CeraVe.

The Skin of Color Society Early Career INNOVATIONS GRANT

“Shark Tank” meets Skin of Color Dermatology in this exciting new grant program geared toward young visionaries with innovative ideas and creative solutions that need startup funding.

We are thrilled to introduce The Skin of Color Society Early Career Innovations Grant, which will provide startup funding for young visionaries and innovators who have creative solutions addressing needs and opportunities within the skin of color dermatology ecosystem. This exciting program was established in 2022, thanks to the vision and generosity of SOCS member Dhaval Bhanusali, MD, FAAD. In the future, we hope to build this fund through matching grants from corporate and individual supporters.

As the world’s leading skin of color dermatology organization, we are delighted to support future leaders in the development of fresh ideas to advance skin of color dermatology with the ultimate goal of achieving health equity and excellence in patient care for all. More to come!

SAVE THE DATE
Thursday, March 16, 2023

19th Annual Skin of Color Society Scientific Symposium
New Orleans, LA, USA

ABOUT THE EARLY CAREER INNOVATIONS GRANT
- Residents, junior faculty and early career professionals are eligible to apply for the SOCS Early Career Innovations Grant.
- Funding will be awarded to help with the development of new ideas and innovations to improve:
  - Access to healthcare
  - Physician training & education
  - Patient care
  - Patient education/communications
  - Technological approaches to service, information and communications
  - Community service
  - Other ideas relevant to patients of color
- Funding can be used to develop an idea or help advance or scale up an idea in progress.
